

# LanSchool vs. LanSchool Air

After 30 years as a trailblazer in education software, Lenovo Software is proud to offer two versions of our innovative classroom management software.

## Which Version of Our Classroom Management Software is Right for You?

### Why LanSchool

- Hosted on your local server
- Primarily used with Mac, Windows or Android devices, or in mixed-device classrooms
- The most comprehensive set of teacher-focused features, including Broadcast Screens
- IT administration control with a robust Tech Console
- Clever integration enables automatic rostering
- One-time up-front software purchase with annual renewal fees for software updates and support

### Why LanSchool Air

- Hosted in the cloud
- Purpose-built for Chromebooks
- Includes the most popular features from LanSchool, including real-time Screen Monitoring and Website Limiting
- Google Classroom and Clever integrations enable automatic rostering
- Ongoing, incremental enhancements at no cost that update automatically
- All-inclusive annual subscription
